## Projects

### Covid Case Tracker App

Built a web application for tracking the global statistics related to coronavirus cases.

- The application allows the users to check the Total coronavirus cases, Recovered coronavirus cases and the total deaths attributed to the virus globally
- The application allows the users to check the statistics for a particular country by selecting the country from a dropdown menu
- A world map is also displayed showing the number of coronavirus cases by country. The radius of the pointer adjusts according to the number of cases in the country.

### Google keep clone

Developed an application which allows a user to write notes.

- The notes added by users are stored until they are deleted by the user.
- This project is done by using HTML, CSS, JavaScript and React.js library

### Live Weather App

Created a weather app which allows the user to check the weather conditions for a particular location.

- The app displays the weather conditions, current temperature and minimum & maximum temperature projected for the day
- In this website there is multiple pages like home, about, weather and link page.
- This project is done by using Node.js, template engine(hbs) and a live weather API .

## Interests

I like arts and crafts. I'm an outgoing person, and like hanging out with friends.

I enjoy being physically active, and spend a lot of time playing sports and team games."

## Education

**Bachelor of Technology (Electronic and Communication)** , Institute of Technical Education and Research , Bhubaneswar  
2016-2020

**School- Siddhivinayak Residential School** , Balasore  
2013-2015

## Tech Skills

### Programming Language:

- Python, JavaScript.

### Backend development:

- Node.js , express.js

### Data Processing and Storage:

- SQL, MongoDB.

### Frontend development:

- React.js, HTML/CSS.

### Development tools:

- Pycharm, Visual Studio Code, Atom, SQL server management studio, Atlas

## Courses

- Data structures and Algorithms
- Object Oriented Programming
- Database Management System

## Achievement

### Geeksforgeeks-

<https://auth.geeksforgeeks.org/user/ankitsarangi21/profile>

### Leetcode-

<https://leetcode.com/ankitsarangi21/>

## Certification

### Full Stack Development Course

AddSkill.io, Bengaluru ,Feb 2021 - Present
